ALFONSO BONILLA (1968 Colombia) Multimedia designer with 9 years of extensive teaching experience in China and Singapore. Alfonso is a Colombian photographer who has spent many years doing research and experimentation around graphic photography and its possibilities as a pictorial language of expression through this medium.

D o v e 4 3 . 3 X 6 2 . 9 i n

He uses the technological tools of graphic design in combination with a particular image exposure, that through overlays and a subjective configuration of the composition of each piece, seeks to communicate its message, offering a reconfiguration of reality through each proposal of great chromatic richness.

Upcoming artist, his work connects and talks easily with contemporary audiences hungry for images that manage to move its day amid the global screen in which we live.

His work is an unmistakable sign of the hyper - modern times in which we live.

CONCEP ABOUT BONILLA'S WORK, MORE RESTLESSNESS THAN ANALYSIS

I observe his works and they shift my attention to mobile spaces, capable of moving in time, from one era to another, from a static era to a digital era; The same is true of the beings that show up in his works, which constitute a "come and go" not so much in space but in time.

This kinetics seems to come from the stark contrast between the monumentality of architecture, deliberately medieval or classical urban, and the fusion or digito-photographic mixture of beings on the run, in a "come and go" that reflects the reality immanent in today's daily life. The wide and open spaces weigh this architectural majesty and emphasize the ephemeral condition of being. The reflection of signals (symbols and arrows) constitutes guiding elements that are erected without fulfilling their task before the obvious immersion of the mobile element in its own "eagerness".

T h e C a t h e d r a l 4 3 . 3 X 6 2 . 9 i n

The unique way in which Bonilla "elevates reality to the category of Art" places him as "The Walker on the Sea of Clouds" (1818), by Caspar David Friedrich facing the abyss that limits the capacity for human expression; not because I limit it, but because it is (today, now) its last frontier ...
